The subject of pensions is one which has been, and still continues to be, of interest to the great American family. The circumstances under which those for revolutionary services were provided are of a highly interesting character.*

It was never the design of our fathers that the system should be partial, giving to some while it withholds from others equally deserving. Your arrangement of the laws, therefore, while it presents in deciral class and omissions which render the system incomplete.

Your work I have found of incalculately value to ince in my position as chairman of the Committee on Revolutionary Pensions, for, without it, I should have been subjected to the labor of a close examination of the statutes; and from the frequency of my recurrence to it I have been alle to test its morth and appreciate its worth.

I am, my dear sir, most respectfully and truly, yours, Dr. R. Mayo.
